

OUR VISION FOR ECONOMIC JUSTICE, 2016:

WE'RE ADDRESSING ECONOMIC INEQUALITIES WITH A PUBLIC-SECTOR PERSPECTIVE.

That means we're using public policy to address and correct disparities in our local economy.

WE'RE FOCUSED ON TWO AREAS:

HOUSING

We're working as part of the Makes Homes Happen coalition, a broad base of organizations.

We're asking the Minneapolis City Council to allocate \$20 million

\$15 million to an affordable housing trust fund to be held by the city

\$5 million to support single family home ownership in low-wealth communities

SMALL BUSINESS DEVELOPMENT

We've formed a coalition with MetroIBA and the Mainstreet Alliance

We're asking the Minneapolis City Council to add 5 new small business navigator positions in Community Planning & Economic Development

These positions help new business owners navigate the startup process and will have a huge impact in low-wealth communities

HOW CAN YOU GET INVOLVED?

Both of these efforts take leadership and involvement from JCA members!
